POSTCARD + STAMP

2022

A postcard and stamp made based off of the animal I chose for this project, the elephant. I chose the elephant as my animal for this project because it's one of my favorite animals. I thought the idea of centering my postcard around poaching would be important because it's one of the reasons why their population is decreasing.

HAWAII POSTER + TRAVEL AD

2022

Inspired by U-Haul graphics, I made this poster and ad for Hawaii. The poster focuses on the cultural and natural aspects of Hawaii while the ad focuses on the beach and people.

HISTORICAL FIGURE PROJECT

2022

A stationary set that was created as a proposed design for a famous figure in history. I chose King Tut. The set includes a letterhead, business card, envelope, and a museum ticket (an additional item).

TYPOGRAPHY

NOMENCLATURE BOOK

Inspired by “The Nomenclature and Fundamental Structures of Letter Forms,” design a book utilizing the images and text from the book. I opted for a simple design for this book, incorporating light blue and dark brown into the text and pages.

PAUL RAND BOOK

2021

Inspired by Paul Rand's essay "Design and the Play Instinct," design a book utilizing the images and text from the essay. Since I wanted to have fun with shapes and colors, I would say my design for this book has a "colorful structured-ness" to it. The design pertains to the layout of the triangles while the four colors (teal, purple, orange, and yellow) add a playful aspect throughout the book.
